AGENDA ITEMS

SCHEDULED ITEMS

May-21	N	ROAD SAFETY STRATEGY update on Safer Roads Humber dashboard	Tim Robinson		<p>submitted for comments by circulation in May 2020- (b) that the strategy be brought back to the North Area Committee in July 2020 to enable a fuller discussion around the Community Speed Watch Scheme to provide further clarification as to i) the role of Humberside Police under the scheme, ii) how this will work in practice across the North Area; iii) how we ensure the safety of volunteers; and iv) how we can work together to reduce speeding; and (c) that with reference to Appendix A (paras 5 and 6) of the Road Safety Strategy, Members also invite the Traffic Engineer to share their views on the situation as to whether speeding is 'likely' and to discuss their views and findings with Members and the Area Teams.</p>		<p>9.11.20 Due to other priorities and Covid response projects, this work has been delayed.</p> <p>the full strategy incorporates a significant amount of raw data associated with the 100's of accidents of which the majority would be slight in severity together with a number of serious and some fatalities.</p> <p>with the agreement of the Chair, It is proposed to run through an update on the Safer Roads Humber Dashboard in the new year which shows recorded personal injury accidents in a more user friendly way and provides an alternative to pages of text.</p> <p>This can be found at: www.Saferroadshumber.com Hull Casualties 2015 – 2019</p>		WP
