<b>Comments</b>	
Options and Risks	<p>The options in the report are to adopt the Strategy or to not adopt the strategy.</p> <p>The risk in not taking this decision in January is that the decision is to replace the existing Strategy which expired in 2013. A decision is due to be taken on the weight management services review in March, this needs to be in place before then.</p>
Reasons for general exception	Due to an administrative error the Forward Plan item that was submitted for inclusion in the Forward Plan in September was omitted from the published Forward Plan. This decision must be taken in January.
