Purpose of Plan

This Business Plan provides an overview of the service, and sets out its key priorities, high level objectives, key deliverables, and key performance measures. It will be supported by individual team plans which contain more detail about how teams work towards meeting priorities and measuring success.

The priorities and actions set out in the Business Plan focus only on key areas of development, improvement, and transformation, and does not cover all detailed aspects of service delivery. The identified priorities will link directly into the Council's contribution towards the Community Plan and achievement of productivity and savings targets.

Progress against the service plan will be reviewed on a regular basis within directorate teams, by the Corporate Strategy Team, and in consultation with Cabinet Portfolio Holders.
